

UNLOCK NEW POSSIBILITIES

INSTACODE
A Smarter Way

YOUR MOST COMPREHENSIVE KEY DATA SOFTWARE AVAILABLE ANYWHERE

Imagine being able to access the largest database of key codes instantly. With InstaCode you can.

InstaCode – the essential product for every locksmith – has undergone an evolution over the last 15 years to become the most comprehensive key data software available. Today it is the first choice for many of the leading security agencies and organisations. And now it is available to you.

InstaCode opens up limitless possibilities no matter where in the world you operate. Whatever machinery or tools you use, whether you specialise in automotive, domestic or commercial work, InstaCode is the only code programme you will ever need.

InstaCode is easy to install and operate, a complete software package designed by locksmiths for locksmiths. It is the way to open doors to new opportunities, taking your business to new levels of efficiency and professionalism.

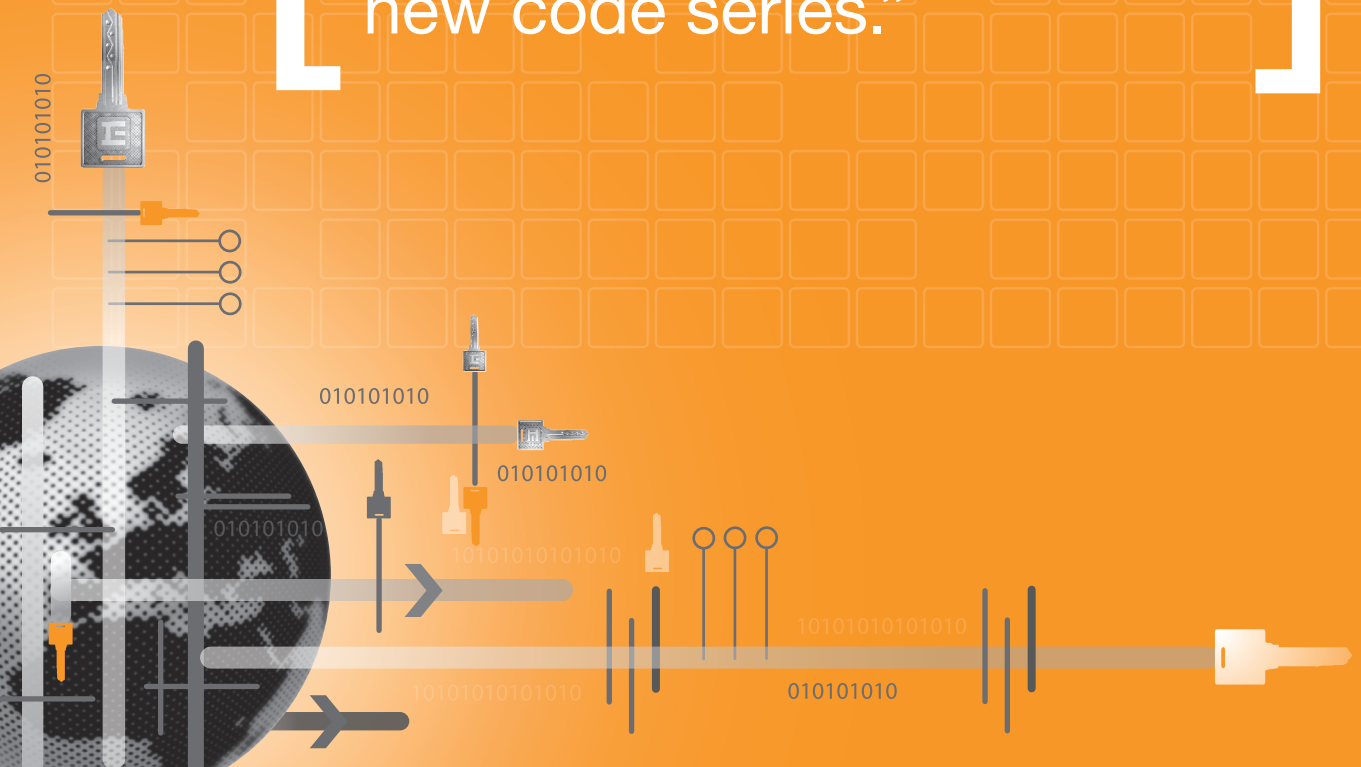

Everything you need

InstaCode comes with everything you need including over 8000 key code series. WH Software is continually researching, verifying and adding new series as they become available to ensure InstaCode remains the most complete key code system.

Easy to use

InstaCode features an intuitive user interface, which utilises predictive text entry. In most cases InstaCode will find the right information as you type, eliminating the need for full data entry. It's that easy, and searches can be performed in a number of ways including searching by any combination of code, manufacturer, vehicle make, model and year, card number, key blank reference and key type.

“WH Software is continually researching and validating new code series.”

World-class features

- Cross-referencing for 132 key blank manufacturers and over 70,000 references
- Includes images of key blanks and profiles
- Supports the widest range of key cutting machines
- Produces complete printouts of code series
- Searches for bittings across a range of code series
- Includes a complete ASP catalogue cross-referenced against make and model, with most models featuring colour pictures of the ASP locks and service components
- Storage and retrieval of customer key codes
- InstaCode is manufacturer independent so information is unbiased
- Each package is licensed for installation on three machines at the one company
- InstaCode can be used in English, French, Spanish, Italian, German and Dutch languages
- Live updates are available periodically via the Internet as new code series and information comes to hand

Optional Automotive features to match your business

- Car opening instructions for popular models
- Wafer/Disc locations covering ignition, door, trunk/boot
- Key remote programming procedures for popular models
- Transponder key information and programming techniques

The world's best code programme

As a locksmith's tool, InstaCode is without peer for its comprehensive database and sheer simplicity. It is an extremely robust and efficient system that will help you improve your service and greatly enhance your capabilities.

KEEP UP WITH INSTACODE

InstaCode contains over 3 billion key codes with new codes added daily. It is a vital tool for any professional locksmith. As lock and key technologies constantly evolve, it is paramount for any locksmith to stay in pace with new developments.

InstaCode comes complete with up-to-date databases for all key data systems available. WH Software is constantly researching and updating information to ensure you always have access to the most comprehensive information resource.

With InstaCode you get the latest information on:

- Codes
- Key Blanks
- Cards
- Transponders & key remotes
- Airbags
- Car opening techniques
- ASP replacement products

InstaCode is intuitively designed with clear Windows-based pages. Its comprehensive search engine will guide you directly to the information you require. And you don't even need to have all of the information – InstaCode is smart enough to predict the related keys that fit your search criteria.

An indispensable investment

With its market-leading features, comprehensive database and relatively low set-up costs, InstaCode is perhaps the most important investment you can make for your business today.

User-friendly interface

A clear interface with presentation of space and depth information, flat widths, angles, card number and other relevant key cutting information make InstaCode easier to use than any alternative.

Stay at the cutting-edge

InstaCode performs live updates, which periodically checks for new updates via the Internet. It is the best way to keep your database at the cutting-edge of the profession.

ENHANCE YOUR CAPABILITIES

InstaCode is packed with features so your business gains many new opportunities for increasing your service potential. Plus your capabilities can be further enhanced by the addition of optional extra modules such as:

- Automotive module
- Master-Keying module
- Triax module
